Standard Electrical Assessment

Description of Work:

Anthony Foronjy (Master Electrician-License #12699) shall perform a **Standard Electrical System Assessment** as per the **Scope of Work** and at the residence of **Customer Address**, which included the **Procedures and Actions** described.

Scope of Work:

1. Electrical Grounding Assessment
 - a. I shall assess your ground rod to measure its resistance to confirm it's under 25 ohms.
 - b. I shall assess your water mains electrode to measure if current is running through the piping.
2. Electrical Panel Assessment
 - a. I shall assess your electrical panels per their full-load current and energy consumption.
3. Electrical Lighting + Power (EMF) Assessment
 - a. I shall assess the electrical magnetic fields with all electrical loads powered + operational.
4. Electrical Wireless (RF) Assessment
 - a. I shall assess the radio frequency field with all electrical wireless devices activated.

Procedures and Actions:

1. Pre-Assessment Consultation
 - a. I will provide the customer with an inclusive [15-minute] pre-assessment consultation.
2. Assessment Data Analyzation
 - a. I will provide specified testing, record the data, diagnose the data and analyze the data.
 - b. I will derive the recommended actions that will be delivered with prudent avoidance.
3. Assessment Analyzation Action
 - a. I will provide you with specific techniques along with onsite immediate remedies.
 - b. I will conclude the assessment to discuss the strategy for any recommended actions.
 - c. I will provide a list of vitamins and antioxidants used to combat EMFs and RF.

Labor Costs:

-Anthony Foronjy (Master Electrician-License #12699) has a \$250/hr. labor rate with 3 billable labor hours valued at \$750 to perform **Standard Electrical System Assessment** per the outlined **Scope of Work**.

-Please note, labor costs are estimated for home size of 2,500 sq. ft. and under. The additional costs are \$5 per each additional square footage and includes [2] electrical panel inspections.

Sub Totals: Labor Costs-\$750.00 + [20%] for Overhead and Profit-\$150.00

Total price for **Standard Electrical System Assessment-----\$900.00**

ASSESSMENT WILL NOT BE PERFORMED UNTIL CONSTRUCTION ORDER HAS BEEN PAID IN FULL-IN + IN-ADVANCED BY OWNER
